

# Breakfast Study

Help us find out if eating breakfast helps improve  
your child's mental abilities!

## Child Study Activities:

- 3 Non-Consecutive overnight visits at the *Children's Nutrition Research Center*
  - Various cognitive evaluations
  - Physical exam provided by a physician
  - Movies, and free time
  - Meals included for child and parent
- Children allergic to nuts are not eligible

Families completing all three visits will receive  
financial compensation
